AbsorGel® Pouch S/D/X

TECHNICAL PRODUCT SHEET

ABSORGEL® POUCH-X

Installation and usage

AbsorGel® Pouch starts working as soon as it is removed from its transparent sealed packaging or removed from a box master PE-bag.

AbsorGel® Pouch are effective in controlling moisture inside of crates, cartons and other types of packaging to prevent mold, bad odor, rust and other moisture related damages.

AbsorGel® Pouch S/X, with one layer of packaging is mainly used for crates and larger boxes, while AbsorGel® Pouch D with two layers is preferred for smaller cartons and when the pouch will be in tight and direct contact with the cargo.

Pouch X: Installation guidelines

Every box is accompanied with assembly instruction via QR code. Read the code or click it to access the installation video.

Pouch S/D: Installation guidelines

Every box is accompanied with assembly instruction via QR code. Read the code or click it to access the installation video.

CALCIUM CHLORIDE MODIFIED STARCH DUPONT™ TYVEK® HDPE-PLASTIC PE-PLASTIC (ONLY POUCH-X) NON-WOVEN (ONLY POUCH-D)

Disposal

Absortech's products are intended for single use. To minimize the environmental impact, we recommend the following procedure for disposal of the used desiccant.

Product dispose to approved waste disposal facility in accordance with local regulations. Calcium Chloride is classified as Hazardous Substance according to statement H319 in GHS standard (Causes serious eye irritation) and might therefore be classified as hazardous waste and should be handled accordingly.

Availability and Operational Temperature

Stock availability may vary between Absortech regions. Contact Absortech or AbsorPartner for guidance. Operational temperature: -20 °C to 70 °C

Dimensioning

The quantity needed will vary depending on various factors such as shipment time, climate conditions, air volume in the box, type of packaging used and type of goods. Contact us for further information.

Shelf Life and Conditions

The shelf life of this product is three years from the production date printed on the packaging label.

Recommended storage temperature: 5 °C to 25 °C

Access to the Safety Data Sheet

Read or click the code to access the SDS with technical and regulatory information of and the different Exposure Scenarios.

LEARN MORE AT ABSORTECH.COM

Absortech helps you prevent moisture damage during transport. Our promise is to protect your brand, increase your savings and lower the environmental footprint of your logistics processes. We are a pioneer in moisture damage prevention with headquarters in Sweden. Since 1996, we have been offering a wide range of inhouse developed and produced desiccants made from calcium chloride. Peace of Moisture Mind® is our moisture damage prevention concept, which includes steps like audits, tests and global supply chain solutions. We are committed to base our operations on sustainable principles and help businesses like yours implement sustainable solutions to prevent moisture damage.
